This shop came through and saved my life. The original contractor didnt order enough flooring so by the time we closed on the house, got around to doing all the floors, etc etc.. the wholesaler went out of business and I couldnt find the same flooring. I called multiple places around my area but Bardiya from Integrity was quick to respond, called warehouses to help me out, found my exact floor and even saved me on costs since all i needed was ONE box. It sounds stupid but he made all the difference. One less thing to stress about during major renovations. He made it happen and didnt charge an arm and a leg. He did me a favor. Pay it forward.

Bardiya was a pleasure to work with. From the first appointment, everything was done with professionalism and friendliness. He went above and beyond to get us the perfect flooring for our basement and gym. I would not hesitate to recommend them to anyone. So glad we found Bardiya!
